

Gain License Program

Own a stake in the earning economy behind RentGain.AI and CollegeGain.AI, powered by Be Belong Launchpad. Revenue share plus a bonus option grant, in one license.

Other Verticals for earning as a service will participate in this program. You will have the opportunity to have a revenue share in these verticals.

Momentum

Real users. Real brands. Real revenue — already live.

110K+

Active users on-platform today

160K

Additional users in onboarding pipeline

500K

Projected active users by year-end 2026

70+

\$52M

Pre-money valuation, current raise

Why Brands Are Buying In

Verified engagement outperforms the open web — brand demand is the demand engine behind every license.

152 sec

Average verified watch time per campaign

6.8%

Click-through rate vs. 0.46% industry average

92%

Video completion rate among verified earners

\$0.42

Cost per completed action for brand partners

Verified brand roster includes:

McDonald's · Walmart · Hulu · Expedia · FanDuel · Acorns · +64 more

The market demand is proven. What's next is scale — and every GainKey license funds the growth engine while earning alongside it.

One Engine Feeding Two Earning Verticals

Be Belong Launchpad onboards brands and campaigns that power both RentGain.AI and CollegeGain.AI.

A GainKey Partner earns from referred users across both verticals — one license, one revenue share, two earning engines.

The Model, In Plain Terms

1

Purchase a License

Starting at \$50K. Every additional \$25K unlocks a lower per-earner price — more earning capacity per dollar.

2

Refer & Onboard Earners

GainKey Partners refer tenants or students directly onto the platform as verified earners.

3

Earn Revenue Share

10% of active net earnings (with hands-on solicitation & onboarding oversight), or 5% passive.

4

Receive a Bonus Option Grant

Every license includes a bonus grant of cashless stock options at \$2.50/share, fully vesting over 12 months — a bonus, not a direct investment.

License Tiers

Bigger licenses buy a lower per-earner price — greater earning capacity per dollar invested.

License Fee	Price / Earner	Earner Slots Unlocked	Share Allocation	Equity Value (@\$2.50)
\$50,000	\$150 (base)	333 earners	20,000 shares	\$50,000
\$75,000	\$135 (-10%)	555 earners	30,000 shares	\$75,000
\$100,000	\$105 (-30%)	952 earners	40,000 shares	\$100,000

Scaling up cuts your cost per earner by up to 30%. The \$75K tier saves \$15/earner vs. the base price; the \$100K tier saves \$45/earner — while unlocking more total earning capacity at the same time.

Active vs. Passive Revenue Share

Be Belong pays a share of net earnings generated by every earner a GainKey Partner brings onto the platform.

10%

ACTIVE Net Earnings Share

Paid when the GainKey Partner actively performs solicitation and onboarding oversight & management for their referred earners.

5%

PASSIVE Net Earnings Share

Paid when the GainKey Partner is not directly managing solicitation and onboarding for their referred earners.

12-Month Onboarding Roadmap

Earner onboarding ramps consistently over 12 months — full capacity is a Year 1 target, not a Day 1 assumption.

25%

Q1 · Months 1–3

Foundation & Verification

KYC/KYB verification, initial outreach, and first earners activated onto the platform.

50%

Q2 · Months 4–6

Growth Phase

Referral network expands; onboarding cadence becomes consistent and repeatable.

75%

Q3 · Months 7–9

Scale Phase

Majority of licensed capacity onboarded; revenue share growing steadily each month.

100%

Q4 · Months 10–12

Full Capacity

Full licensed earner capacity onboarded; run-rate revenue share achieved entering Year 2.

These are Be Belong's targets for consistent onboarding, not guarantees. Actual pace varies by market conditions and referral effort — see disclosures.

Earnings Scenarios — \$50K License

333 earners at full licensed capacity (\$150/earner tier), across a range of net-earnings outcomes.

Net Earnings per Earner/Mo	Monthly Earner Pool	Full-Capacity Annual @ 10%	Full-Capacity Annual @ 5%	Realistic Year 1* @ 10%	Realistic Year 1* @ 5%
\$100 (low)	\$33,300	\$39,960	\$19,980	\$24,975	\$12,488
\$500 (base)	\$166,500	\$199,800	\$99,900	\$124,875	\$62,438
\$1,000 (high)	\$333,000	\$399,600	\$199,800	\$249,750	\$124,875

*Realistic Year 1 applies the 12-month onboarding ramp (Q1 25% Q2 50% Q3 75% Q4 100%, averaging ~62.5% of full capacity across the year). Full run-rate is reached entering Year 2.

Scaling the Same Math Across Tiers

Same \$500/month per-earner assumption, applied to each tier's earner capacity — note the falling cost per earner.

Tier	Price / Earner	Earners	Monthly Pool	Annual @ 10%	Annual @ 5%
\$50,000	\$150 (base)	333	\$166,500	\$199,800	\$99,900
\$75,000	\$135 (-10%)	555	\$277,500	\$333,000	\$166,500
\$100,000	\$105 (-30%)	952	\$476,000	\$571,200	\$285,600

All figures assume \$500/month net earnings per earner, at full tier capacity. Larger licenses unlock more earner capacity at a steadily lower price per slot — up to 30% below the base rate.

Realistic Year 1 (with the 12-month onboarding ramp, ~62.5% average capacity): \$50K ~ \$124,875 (10%) / \$62,438 (5%) · \$75K ~ \$208,125 / \$104,063 · \$100K ~ \$357,000 / \$178,500

Plus: A Bonus Option Grant

Every license includes a bonus grant of cashless stock options at \$2.50/share, fully vesting over 12 months.

\$50,000 License

20,000 options

@ \$2.50/share = \$50,000
option value at grant

Cashless option · 12-month vest

\$75,000 License

30,000 options

@ \$2.50/share = \$75,000
option value at grant

Cashless option · 12-month vest

\$100,000 License

40,000 options

@ \$2.50/share = \$100,000
option value at grant

Cashless option · 12-month vest

This option grant is a bonus incentive provided to GainKey Partners — it is not a direct cash investment in Be Belong Group Corp. Options are cashless and fully vest over 12 months from grant date, subject to the definitive option agreement.

Important Disclosures

Please read carefully before proceeding as a GainKey Partner.

Projected, not guaranteed

All earnings figures in this document are illustrative projections based on stated assumptions. They are not guarantees of actual results.

Contingent on active referral

Revenue share is paid only on the net earnings of earners the GainKey Partner has actually referred, verified, and onboarded — there is no revenue share without referred, active earners.

Ramp is a target, not a promise

The 12-month onboarding roadmap reflects Be Belong's standard expectation for consistent growth. Actual onboarding pace may vary by market conditions and referral effort.

Options are a bonus, not an investment

The share allocation is a bonus incentive, not a direct equity investment in Be Belong Group Corp. It is issued as a cashless stock option, fully vesting over 12 months from grant.

This document is for informational and discussion purposes only. It does not constitute an offer to sell or a solicitation of an offer to buy any security, and does not constitute legal, financial, or investment advice. Prospective GainKey Partners should consult their own independent counsel and advisors before entering into any license agreement.

Become a GainKey Partner

Fund the growth engine. Earn on every referred user. Receive a bonus option grant along the way.

- Three license tiers from \$50K, with per-earner pricing from \$150 down to \$105 — up to 30% lower at scale
- 10% active / 5% passive revenue share on referred earners' net earnings, ramping over a 12-month onboarding roadmap
- Bonus cashless stock option grant at \$2.50/share on every license, fully vesting over 12 months
